# Nigeria 2025 Licensing Round

## PPL 2A30

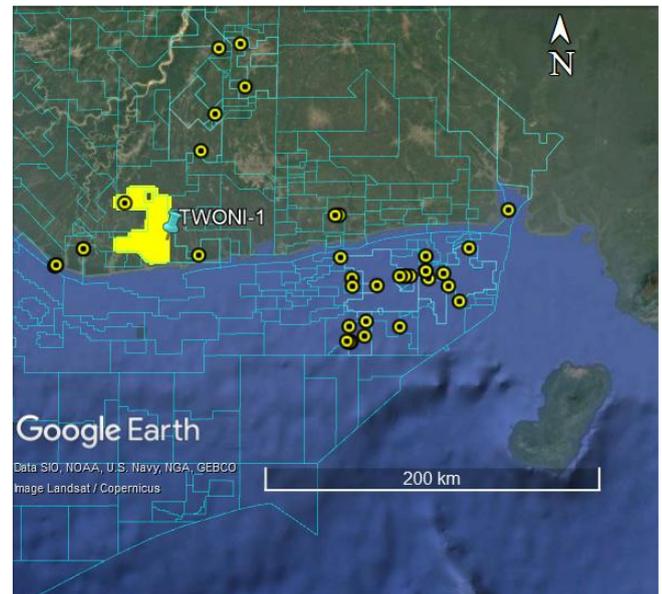

**NIGERIAN UPSTREAM  
PETROLEUM REGULATORY  
COMMISSION**

PPL 2A30 covers an area excised from OML 29 in accordance with the Petroleum Industry Act (PIA) 2021. PPL 2A30 is situated in eastern Niger Delta. The block is covered by 3D seismic data acquired by SPDC in 1996.

Twoni Creek field is situated in the Coastal Swamp Depobelt in swamp terrain, eastern Niger Delta sedimentary basin. It is located close to the boundary with OML 25 and the closest flow station is Odeama Creek.

Twoni Creek-1 was drilled by SPDC between April 28 and June 1, 1976, to a total depth of 12,802 feet (MD). The well was drilled off structure.

OML 29 is currently operated by AITEO.
