**NIGERIAN UPSTREAM  
PETROLEUM REGULATORY  
COMMISSION**

Block PPL 2010 covers an area excised from former OML 127 in accordance with the Petroleum Industry Act (PIA) 2021. It lies deepwater offshore with water depths ranging between 200 to 700m. The block is fully covered by Multi-client 3D seismic.

The PPL 2010 block is located in the central part of the deep offshore Niger Delta sedimentary basin. The block is bounded to the east by the Agabami and Ikija fields operated by Chevron.

No wells have been drilled in PPL2010
